

**Public Policy Agenda Priorities:**

The Network works diligently to improve the accessibility and affordability of quality child care options for all families. We support policies that address issues of equity in child care and urge our policy makers to:

- Protect and strengthen the child care delivery system so that every parent trying to provide for their family has the ability to do so, and every child care provider is adequately compensated for the care they deliver;
- Pass a budget that prioritizes quality, accessible child care for all children, especially infants and toddlers;
- Prioritize policies that help ensure all parents have the resources they need to care for their families.
